

FAASTeam presents:

Mid South Mid-Air Collision Avoidance Seminar

Military and civilian aircraft share common airspace, but use it quite differently. This event is intended to inform attendees of C-130 operations in our region and to provide an interactive forum for the exchange of information on avoidance of mid-air collisions/conflicts along low altitude military training routes. The seminar starts at 10:00 AM and will be followed by the opportunity to visit a variety of displays at the fly-in, including a C-130.

Seminar attendance is limited to active pilots, other flight crew and student pilots.

Directions: From Interstate 30, take exit 3 to I-49 southbound. From I-49, take exit 35. At stop sign, go left to reach stoplight at Arkansas Blvd. Go left on Arkansas Blvd continue in left lane up to stop sign; cross RR tracks and take first right onto Globe Avenue. SAU Tech A&P School will be on a small rise to the left; turn left before reaching T-Hangars. If arriving on I-49 northbound, take Arkansas Blvd exit 35; turn right onto Arkansas Blvd and proceed beyond the stop sign as above. Fly-in participants will be provided transportation from the north ramp to the seminar location.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
